

Quality Management and OHS of Sub-Contractors

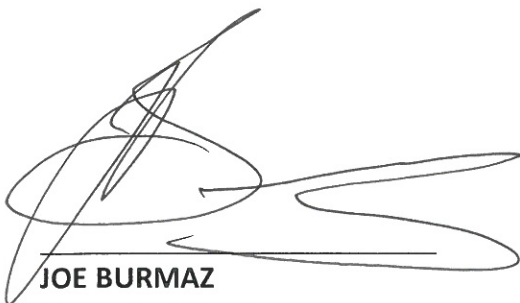

The Envar Group of Companies ensures that all Sub-Contractors under their management will perform all works in accordance with the following Environmental, OHS and Quality Management systems and policies.

- Conform to Envar Quality Management system as per the requirements of AS/NZS ISO 9001:2008.
- Will work in accordance with any other client side Quality Management requirements.
- Will work in accordance with Occupational Safety and Health Act (1984) and Occupational Safety and Health Regulations (1996).
- Will work in accordance with any other client side OHS requirements.
- Will work in accordance with Envar Environmental Policy
- Will work in accordance with any other client side Environmental requirements

Envar is committed to ensuring all Sub-Contractor personnel under their management have a clear understanding of their responsibilities in respect to the Environmental, OHS and Quality Management systems and policies that Envar and their clients have in place.

The management of Envar Group of Companies demonstrates their commitment to the development and maintenance of Environmental, OHS and Quality Management systems and policies within our ongoing Sub-Contractor relationships through:

- Use of Sub-Contractor evaluations.
- Regular meetings and communication with Sub-Contractors.
- Inspection Test Plans (ITP's) carried out on all completed works at various stages.
